

MAR-FLEX CRACK INJECTION ACCESSORIES

The items below are all accessories that are used when repairing concrete and are listed here for your convenience.

Quick Foam Fine Urethane
IA-68100
6 (1:1 cartridges)/box
A hydrophobic polyurethane liquid formula designed to prevent water from penetrating cracks. Best suited for dry or damp hairline or larger cracks not actively leaking

Quick Foam Broad Urethane
IA-68120
6 (1:0 cartridges)/box
Designed to stop water infiltration or ex-filtration
Best suited for actively leaking cracks that are 1/8" or wider

Quickset Surface Port Paste
IA-68160
Two component smooth epoxy adhesive designed to seal the surface of a crack and to attach ports to masonry surfaces.
6 (1:1 cartridges)/box

QuickSet Surface Seal & Peel
IA-68165
Two component, solvent free, paste adhesive. It is used as a fast-curing removable surface sealer and to attach ports in epoxy and urethane foam crack repair. Cured product does not require sanding or grinding for removal from the wall. 6 (1:1 cartridges)/box

Low Viscosity Epoxy Crack Filler IA-68140
8 (2:1 cartridges)/box
Prevents movement along cracked surfaces and protects cracks from absorbing water and other substances
For the injection of dry or damp cracks that are hairline and larger

Anchor Epoxy IA-68170
12 (1:1 cartridges)/box
12 static mixing nozzles & retaining nuts included
Two-component epoxy adhesive. Ideal for anchoring bolts, dowels and reinforcing rebar in concrete
*Special Order Only

1/4" : 24 Quick Mix Static Mixer IA-68180
24/box
Designed to be used with cartridge systems
Recommended to be used with Quick Foam Fine (IA-68100), Quick Foam Broad (IA-68120)

1/4" : 32 Quick Mix Static Mixer IA-68190
24/box
Designed to be used with cartridge systems
Recommended to be used with Low Viscosity Epoxy Crack Filler (IA-68140)

Retaining Nuts IA-68210
10/bag
Threaded nuts to hold mixing nozzle onto dual cartridge during crack injection process

Universal Ports IA-68280
Designed for surface/corner mounted low pressure crack injection. Surface/corner ports are suitable for both epoxy and urethane materials. Flush mounts to both flat and corner concrete surfaces.
250/box

Flexible Quick Hose Injection Assembly
IA-68220
10/box
Use to get to those hard to reach injection ports.
Can be used with either epoxy or urethane materials

Low-Pressure Drill-In Port
IA-68230
100/bag
To be used on hairline and actively leaking cracks
Requires a 5/8" diameter drilled hole
Internal ball bearing prevents back-flow of material during injection

Putty Knives IAT-64210
25/box
1.5" plastic, disposable putty knives
Ideal for hand mixing and applying surface port paste

Stir Dish IAT-64215
200/box
Clear stir dishes
Suitable for mixing surface port paste

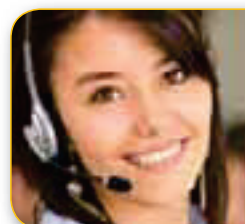

Wall Preparation Brush
IAT-64225
Composite handle wire brush
Removes loose and scaled material from both smooth and rough masonry surfaces

Hypo-Allergenic Gloves
IAT-64240
100 pieces/box
Ambidextrous, disposable latex gloves
Ideal for use with Crack Injection materials
6 mil Nitrile

Crack Injection Gun Economy IAT-64114
Easy front loading with rear tube seals to prevent leaking
Kit included to convert gun from 1:1 to 2:1 applications
